

Photo Slide Shows

A slide show is a way to automatically run a series of photos on your computer.

Organize Your Photos in the Pictures Folder

Pictures are organized alphabetically by default, adding a number in front of the picture name will put them in numerical order.

-  If the pictures aren't already in their own folder, create a new folder
 - XP- click on the folder icon in the upper right corner of the window, (it will show Create a new Folder when pointed to), when the window opens type a folder name, click OK
 - Vista-click on Organize > click on New > click on Folder, when the folder shows type a name to replace New Folder and click on enter to lock it in
 - Windows 7-click on New Folder on the toolbar above the pictures, when the folder shows type a name to replace New Folder and click on enter to lock it in

-  Rename Pictures:
 - Right click on the photo name and select Rename from the Option list
 - While the name is highlighted in blue, retype the name with the number in front of it
 - Click on the Enter key on your keyboard to save the new name

Starting the Slide Show

-  Click on Start
-  Click on Pictures
-  Click on the first photo, this will open Windows Photo Viewer
-  Click on the button in the center of the control bar at the bottom of the window, (Play Slide Show button)
-  It will begin to show each picture and then automatically advance to the next
-  To end the show, click on the Esc key on keyboard
